Subject: Fixed Assets

Fixed assets are those assets of a long-term nature intended to be held or used by the school district. This definition includes mobile equipment, furniture and equipment, land, buildings, improvements other than buildings, construction in progress and leased property under capital leases.

The importance of developing and maintaining a complete and accurate accounting of fixed assets cannot be emphasized too strongly. The Williamson Central School District recognizes a great responsibility for custody of its assets. This protective custody cannot be accomplished without complete and accurate records.

The accuracy of the Fixed Asset Inventory must be maintained at all times. Responsibility for the individual fixed asset rests with the individual in whose room the asset is located; e.g., a teacher for equipment located in his classroom. Ultimate responsibility rests with the school principal. One of these individuals will have to account for any and all missing assets or reimburse the district with the cost of that asset.

Any questions concerning the district’s fixed asset/inventory procedures should be directed to the district’s Business Manager.

District inventory counts will be conducted, at a minimum, annually. However, throughout the year, the Business Office may conduct asset verification checks.

FIXED ASSETS ACCOUNTABILITY

The Williamson Central School District shall establish and maintain a system of accountability for its fixed assets. In order to establish and maintain this system, the following policies and procedures shall be implemented and adhered to by all schools and departments of the Williamson Central School District.

Asset Valuation

All purchased assets will be valued at historical cost (price paid for the asset) or if the actual historical cost is not available, estimated historical cost. All donated assets will be valued at fair market at the time of donation.
Subject: Fixed Assets (Continued)

The donor shall provide the fair market value of donated assets at the time of donation, and the value will be reflected in the minutes of the school board.

Capitalization

All assets that meet the following criteria shall be capitalized (coded to appropriate account number, tagged, and added to the district inventory) by the Williamson Central School District.

1. The asset has a useful life of more than one year, and
2. The asset has a historical cost or, if donated, a fair market value of greater than $1000,
   or
3. The asset is considered “highly walkable.”

Highly walkable assets are those that may have an historical cost or value below $500, but, due to the type and nature of the asset fixed, asset accountability is required. Highly walkable assets include, but are not limited to, the following:
