Subject: Selection/Classification Process

The Board approves the use of the selection/classification process for all secondary school interscholastic team members. The Superintendent shall implement the procedures and maintain a file of those students deemed eligible as a result of those procedures.

The Williamson Central School Athletic Program allows students in 7th and 8th grade, who meet the qualifications of the New York State maturity and physical fitness standards for the selector/classification screening procedure, to participate at the Junior Varsity or Varsity level of athletics. At no time will elementary school students, those under 7th grade, be permitted to participate in any athletic event that can be construed to be an interscholastic activity.
