

POLICY	2008	8300
	Instruction	

Subject: Instructional Materials

The purpose of instructional materials shall be to implement, enrich, and support the educational program of the school.

Instructional materials should contribute to the development of positive social and intellectual values of the students.

The Board of Education shall provide the faculty and students with such instructional materials as are educationally needed and financially feasible to make the instructional program meaningful to students of all levels of ability.

Education Law Sections 701, 703, 704

Adopted: Board of Education
1987

Approved: Board of Education
