Subject: Attendance Policy

The Williamson Central School District does not have an open campus and students cannot be released during the school day for unauthorized reasons. Students are expected to be in school for the entire time school is in session.

A. Statement of Overall Objectives and Philosophy

School attendance is both a right and a responsibility. The Board of Education recognizes that consistent school attendance, academic success, school completion, and success in the workplace have a direct correlation. The school district also wishes to become an active partner with students, parents, and the community in the task of helping all students meet or exceed the New York State Learning Standards.

The Board has developed this comprehensive student attendance policy to meet the following objectives:
(1) To increase school graduation rates;
(2) To raise student achievement and performance;
(3) To identify attendance patterns in order to decrease the number of tardy arrivals to school;
(4) To know the whereabouts of every student for safety and other reasons;
(5) To verify that individual students are complying with education laws relating to compulsory attendance;
(6) To determine the school district’s average daily attendance for state aid purposes.

C. Student Attendance Recordkeeping/Data Collection

The record of each student’s presence, absence, tardiness and early departure shall be kept in a register of attendance in a manner consistent with the Commissioner’s Regulations. An absence, tardiness or early departure will be entered as “excused” or “unexcused” along with the District’s code for the reasons. Such records shall be kept for each scheduled day of instruction on which a school is not closed for all or part of the day due to causes deemed satisfactory to the Commissioner of Education. The Superintendent shall, subject to the approval of the Board, implement regulations intended to execute the intent of this policy in a manner appropriate to each of the District’s school buildings and take such steps as necessary to inform building staff of the requirements.

D. Building Review of Attendance Records

At the end of each term, each building principal will review attendance records in conjunction with the school nurse/attendance clerk and any other designated staff. The review is intended to identify individual and group attendance patterns and to initiate appropriate action to address problems of unexcused absences, early departures or tardiness.

E. Annual Review by the Board of Education

The Superintendent shall keep the Board informed regarding legal requirements for compulsory education. The Board shall annually review the building level attendance records and if such records show an unexplained decline in student attendance at the building, the Board will consider such revisions to the policy and plan as they deem necessary to improve student attendance.
