Policy 8410 – Independent Study
Policy 8502 – Appropriate Special Education Programs and Related Services for Students with Disabilities
SUBJECT: Independent Study

The Board of Education recognizes the value of supervised independent study for students in situations where special interest, abilities, or unique individual needs cannot be properly accommodated in the regular instructional program. In accordance with the New York State Commissioner’s Regulations students may earn a maximum of 3 units of elective credit towards a Regents diploma through independent study.

Student participation in independent study shall be approved by a school-based panel consisting of, at a minimum, the principal, a teacher in the subject area for which independent study credit is sought, and a guidance counselor or other administrator. The panel shall approve the student’s participation in independent study based on the following criteria:

- The student has demonstrated readiness and has a high likelihood of success (may be indicated by a given grade point average in general or in the given subject area) in each subject in which he or she seeks to undertake independent study; and
- the student has accumulated the expected number of units of credit for the student’s grade level; and
- the student has passed the appropriate number of Regents examinations or other assessments required for graduation, for the student’s grade level.

Independent study shall be:

- academically rigorous and aligned to the New York State commencement-level learning standards;
- overseen by a teacher knowledgeable and experienced in the subject area of the independent study;
- based on a syllabus on file for each independent study; and
- of comparable scope and quality to classroom work that would have been done at the school awarding the credit.

The principal, after consultation with relevant faculty, shall award credit to the student for successful completion of the independent study and demonstrated mastery of the learning outcomes for the subject.

Credit for independent study may be awarded for elective courses only, and shall not be awarded for courses required for the Regents diploma as specified in subparagraph (iv) of paragraph (7) of subdivision (b) of this section. (8 NYCRR § 100.5 [d] [9]).

Approved: Board of Education
(Date)
Subject: Appropriate Special Education Programs and Related Services for Students with Disabilities

The Board of Education recognizes its responsibility for providing appropriate special education and related services that meet the individual needs of disabled school-aged and preschool students. To achieve this goal the Committee on Special Education (CSE) shall provide the Board with a written evaluation for each disabled student, which includes:

a) Identification of disabling condition.

b) Recommendation(s) for a special education program and/or related service(s).

The Board of Education directs that the Committee on Special Education (CSE) or Committee on Preschool Special Education (CPSE) shall have prepared a written statement (program) for each child with a disability.

Such an Individualized Education Program will be developed by the CSE or CPSE upon referral, and reviewed or revised, whichever is appropriate, for every child with a disability at least annually or in the event that the program no longer appears to be appropriate to meet the student’s needs and ability level.

A pupil with disabilities shall be provided the special education services determined by the Board of Education to be necessary to meet the pupil’s special education needs. Services shall be provided in the least restrictive environment as defined in Section 200.1(cc) of the Commissioner’s Regulations.

Students with disabilities placed together for purposes of special education shall be grouped by similarity of individual needs as defined in Section 200.1(ww) of the Commissioner’s Regulations. This grouping shall be in accordance with the following:

(a) academic or educational achievement and learning characteristics
which shall mean the levels of knowledge and development in subject and skill areas, including activities of daily living, level of intellectual functioning, adaptive behavior, expected rate of progress in acquiring skills and information, and learning style;
Subject: Appropriate Special Education Programs and Related Services for Students with Disabilities (Continued)

(b) social development which shall mean the degree and quality of the student’s relationships with peers and adults, feelings about self, and social adjustment to school and community environments;

(c) physical development which shall mean the degree or quality of the student’s motor and sensory development, health, vitality, and physical skills or limitations which pertain to the learning process; and

(d) management needs which shall mean the nature of and degree to which environmental modifications and human or material resources are required to enable the student to benefit from instruction. Management needs shall be determined in accordance with the factors identified in each of the three areas described in clauses (a)-(c) of this subparagraph.

Twelve Month Education Program
The School District recognizes the need and shall provide, directly or by contract, special education services during July and August to students whose disabilities require a structured learning environment to prevent substantive regression, as determined by the Committee on Special Education.

Subject: Appropriate Special Education Programs for Students with Disabilities

School-aged and preschool students with disabilities shall be provided with an appropriate special education program. Students with disabilities shall be provided special education in the least restrictive environment as defined in Section 200.1(cc) of the Commissioner’s Regulations. A pupil with disabilities shall be provided the special education services determined by the Board of Education to be necessary to meet the pupil’s special education needs. Students with disabilities placed together for purposes of special education shall be grouped by similarity of individual needs as defined in Section 200.1(ww) of the Commissioner’s Regulations. This grouping shall be in accordance with the following:

(a) *academic or educational achievement and learning characteristics* which shall mean the levels of knowledge and development in subject and skill areas, including activities of daily living, level of intellectual functioning, adaptive behavior, expected rate of progress in acquiring skills and information, and learning style;

(b) *social development* which shall mean the degree and quality of the student’s relationships with peers and adults, feelings about self, and social adjustment to school and community environments;

(c) *physical development* which shall mean the degree or quality of the student’s motor and sensory development, health, vitality, and physical skills or limitations which pertain to the learning process; and

(d) *management needs* which shall mean the nature of and degree to which environmental modifications and human or material resources are required to enable the student to benefit from instruction. Management needs shall be determined in accordance with the factors identified in each of the three areas described in clauses (a)-(c) of this subparagraph.
